

VICTOR MERSEGUEL

FRONT-END DEVELOPER

I consider myself an artist who discovered himself in the world of programming. I am currently in a career transition phase, with some professional experience as a freelance front-end developer, but with a rich background in teamwork, both as a collaborator and as a leader. My expertise includes **React.js**, **HTML5**, **CSS3**, and **JavaScript (ES6)**.

EXPERIENCE - Some projects

Freelancer, Cascais - Portugal

Front-End Developer

February 2023

Project: **Landing Page** ([Project Link](#))

- The page offers a simple yet beautiful and user-friendly interface, with clear and precise navigation.

The project allows for quick rearrangement of elements for traffic testing and better results due to componentization.

-Technologies: React.js, HTML5, CSS3, JavaScript, Photoshop.

Project: **iPhone 14 Clone** ([Project Link](#))

- A reproduction of the iPhone 14 presentation page with a simple yet efficient approach, aiming to analyze and replicate elements used by a globally recognized company for its design and content.

- Technologies: HTML5, CSS3, JavaScript. Version Control: Git.
